

CONNECTING TO MISDWIFI

STEP 1

- Select the radar in the top of your screen and choose join other network.

STEP 2

- Type in MISDWIFI all caps and choose bottom selection of WPA2 Enterprise. Then you will type in your username and password and select join.

You should now have a black radar and be connected. If you are still having problems, follow step 3 and then repeat the previous steps to get connected.

STEP 3
