

## How to Reset My Default Keychain

Copied from:

<http://support.apple.com/kb/HT1631>

### I don't remember my original (former) account password

In this case, you'll need to delete the keychain. Deleting a keychain also deletes all the password data saved in that keychain.

1. In Keychain Access, choose **Preferences** from the **Keychain Access** menu.
2. If available, click the **Reset My Default Keychain** button. This will remove the login keychain and create a new one with the password provided.
3. If **Reset My Default Keychain** is not available, choose **Keychain List** from the **Edit** menu.
4. [Delete](#) the "login" keychain.

The next time you log in to the account, you can save your current password in a keychain.

And remember when someone changes the password when logging in to select:
